

Adam Wentworth

Software Engineer | Go Backends | C++ Systems | Full-Stack Products

Vancouver, BC | 604-726-7888 | adamjohnwentworth@gmail.com | adamwentworth.ca | github.com/AdamWentworth | linkedin.com/in/adam-john-wentworth
BCIT BSc Applied Computer Science, expected May 2027 | Seeking 2027 software engineering roles

PROFILE

Software engineer and BCIT Applied Computer Science student building full-stack products, Go services, C++ game systems, and AI-adjacent tooling. I use modern AI coding workflows to move faster while keeping ownership of design, testing, and production quality.

SKILLS

Languages	TypeScript, JavaScript, Python, Go, C++20, Rust, SQL
Backend/Data	Microservices, net/http, Fiber, Node/Express, FastAPI, PostgreSQL/PostGIS, MySQL, MongoDB, ClickHouse, Kafka
Frontend/Desktop	React, Astro, Expo, Tauri, CSS, Accessibility
Systems/Infra	SDL2, OpenGL, Direct3D 12, Lua, sol2, CMake, Docker, NGINX, GitHub Actions
AI/Automation	OpenAI API, llama.cpp, Ollama, Whisper ASR, Python scripting

SELECTED PROJECTS

Pokemon Go Nexus - Full-stack product system <i>React, Go, Kafka, MySQL, Postgres/PostGIS, Node, MongoDB, Docker, NGINX, Vitest</i> - Built Go services, Kafka-backed update flow, MySQL persistence, and SSE readers for live Pokemon GO collection updates. - Implemented auth, geospatial Postgres/PostGIS search, React clients, Docker/NGINX deployment, backups, and frontend tests.	September 2023 - Present
WinRift - Go game analytics backend <i>Go, net/http, ClickHouse, Riot API, React, TypeScript, Docker, GitHub Actions</i> - Built Go API, Riot Games API collector worker, monitor, and patch archive tooling for League analytics workflows. - Normalized match, timeline, rank, and static-data payloads into ClickHouse read models for champion guides and live scouting.	2026 - Present
Pokemon Autochess - C++ engine and game systems <i>C++20, SDL2, OpenGL, Direct3D 12, Lua, sol2, CMake, JSON</i> - Built C++20 engine modules for app lifecycle, UI, camera/board rendering, model loading, animation, and render caches. - Composed deterministic runtime systems with Lua tuning, OpenGL and Direct3D 12 paths, VFX tooling, and smoke tests.	April 2025 - Present

EXPERIENCE

Software Developer Intern - Savepoint Client Project / BCIT <i>Rust, Tauri, TypeScript, React, Python, Image processing, CLI tools</i> Built Python image-processing and CLI scripts for AI video training-data preparation inside a Rust/Tauri/React desktop workflow.	Vancouver, BC January 2024 - April 2024
Full-Stack Developer - Innota Client Project / BCIT <i>MongoDB, Express, React, Node, Docker, OpenAI API</i> Shipped React UI and REST APIs for a PDF study workspace, including upload/ingestion, OpenAI writing actions, Docker, and handoff.	Vancouver, BC September 2023 - December 2023
IT Support Specialist Intern - Firefly Systems IT Support <i>Windows, macOS, Linux, Active Directory, Office 365, Google Workspace</i> Supported Windows, macOS, Linux, hardware, cloud, networking, Active Directory, VPN, Office 365, and Google Workspace environments.	Vancouver, BC May 2023 - August 2023
Operations & Data Coordinator - Reliant Music <i>Music catalog operations, Metadata QA, Royalty claim readiness, Spreadsheet systems, Artist research</i> Rebuilt music catalog and artist research data into QA-ready spreadsheet systems for royalty claims, placements, and follow-up.	Vancouver, BC August 2020 - February 2023

EDUCATION

BCIT	Bachelor of Science in Applied Computer Science	Expected May 2027
BCIT	Diploma in Computer Information Technology	May 2024
SAE Institute	Diploma in Audio Engineering & Music Production	June 2020

ADDITIONAL

CaptainMonkHD: YouTube creator with 200k+ subscribers, Riot Games Partner, analytics-driven production, and brand partnerships.	Recording engineer: Client-facing studio work, Pro Tools sessions, signal flow, live-floor tracking, and technical troubleshooting.
